

I build AI-native regulated platforms. \$383M+ value unlocked.

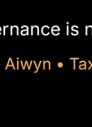

AI Product, Design, and Technology leadership • Founder • \$383M+ enterprise value delivered • \$113M funding enabled

Calm, governed platforms where AI does the work and humans stay in control.

© Based in Minnesota • Open to Remote

AI-native platforms for high-trust, high-stakes environments with calm, consumer-grade experiences.

LEADERSHIP IMPACT

Proof. At a glance.

CPO / VP leading AI-native product, design, and technology from 0→1 to scale.

\$383M+

Combined enterprise value delivered across fintech, tax, proptech, CRM, and ERP platforms.

\$113M

Enabled \$113M in funding by shipping an AI-native enterprise tax platform in 5 months.

\$70M

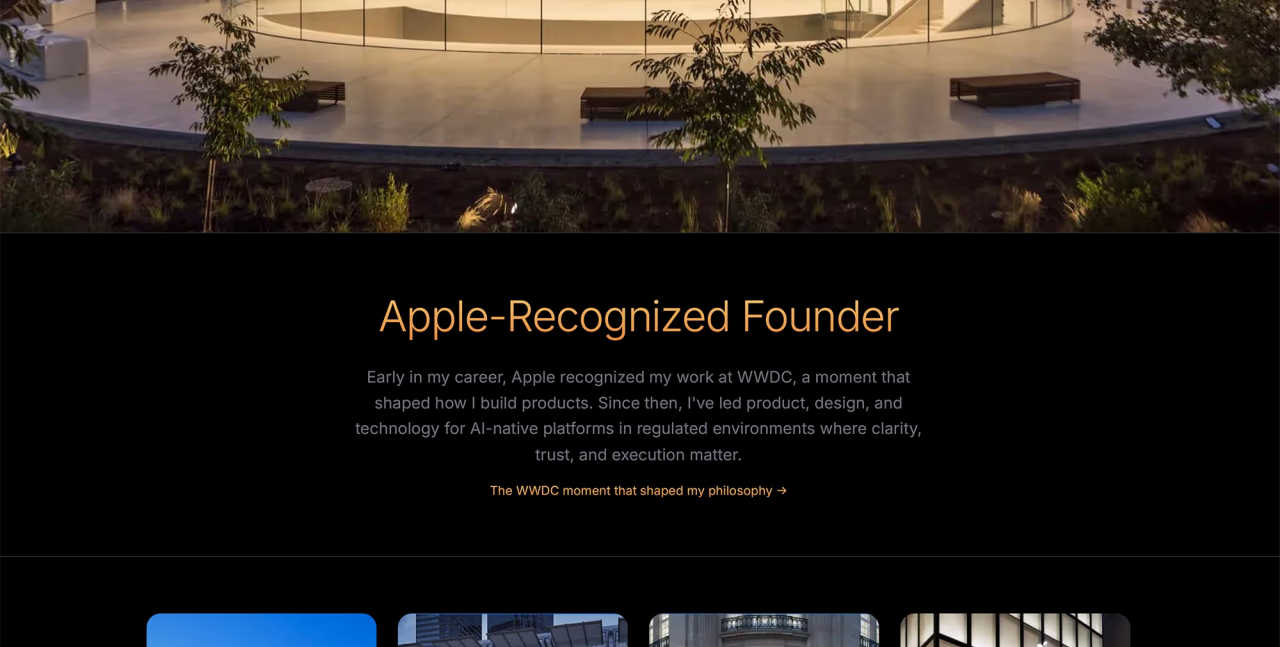

Launched a \$70M SEC-registered investment platform, simplifying complex flows into trusted experiences.

30+

Led cross-functional teams across design, engineering, and brand with 5 direct reports.

Trusted to build platforms where governance is non-negotiable and failure is expensive.

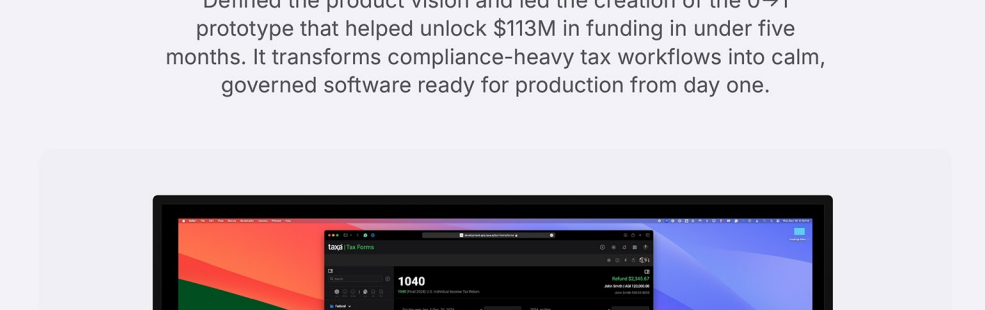

Trusted by leaders at: **Aiwyn** • **Taxa** • **Norhart** • **Gro CRM**

Apple-Recognized Founder

Early in my career, Apple recognized my work at WWDC, a moment that shaped how I build products. Since then, I've led product, design, and technology for AI-native platforms in regulated environments where clarity, trust, and execution matter.

The WWDC moment that shaped my philosophy →

Impact

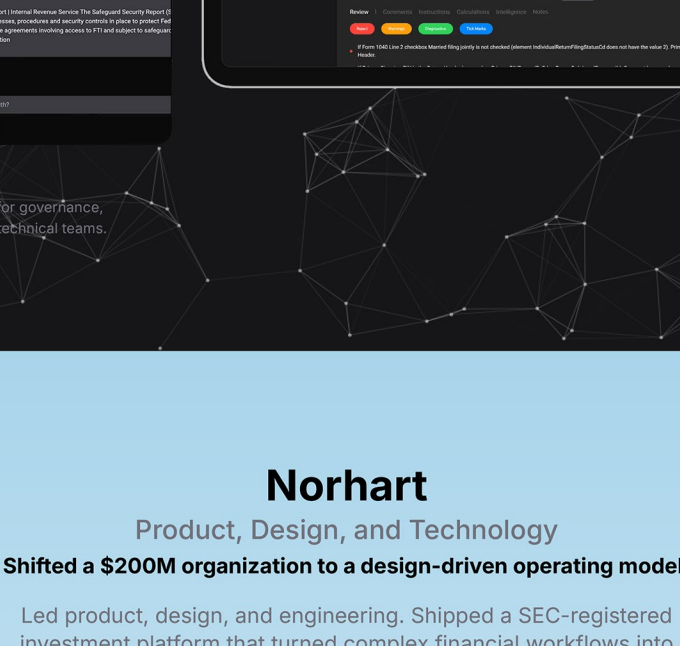

Partnered with Apple Marketing and showcased products featured in Apple Store environments.

Aiwyn | Taxa

VP Product Design

Prototype that helped secure \$113M in funding.

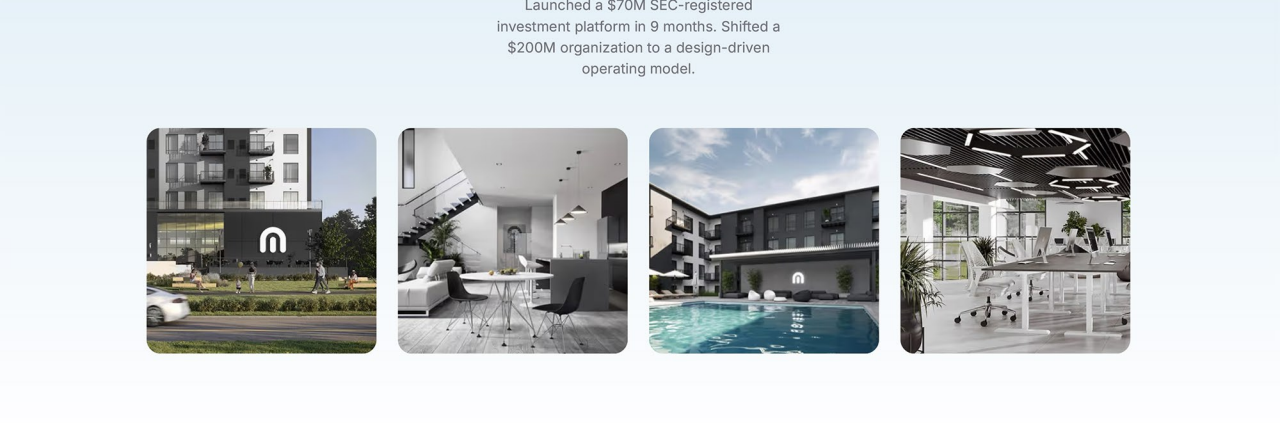

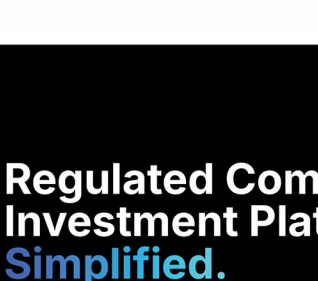

Defined the product vision and led the creation of the 0→1 prototype that helped unlock \$113M in funding in under five months. It transforms compliance-heavy tax workflows into calm, governed software ready for production from day one.

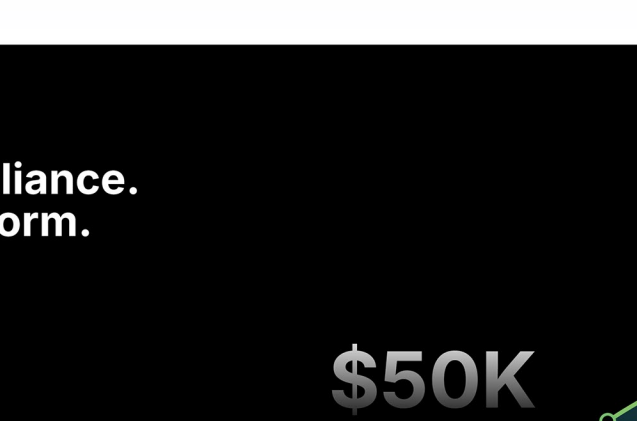

Human control of AI

Complexity fades.

Trust stays.
